## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following amendment is made herewith:

(A) In the title replace "REMOVALBLE" with "REMOVABLE".

In addition, authorization for the following examiner's amendment was given in a telephone interview with Michael Smith (#39,563) on 9/6/05.

(B) Amend claim 1 as follows:

A system for accumulating information pertaining to the operating parameters, operating history and status of computers for use in diagnostic evaluation, comprising:

- a computer having an operating system controlling at least one process, the process comprising a sequence of states of operation;
- a memory storage coupled to the computer, the memory storage capable of permanently storing data from the computer;
- a memory, coupled to the computer, the memory containing stored program instructions executable by the computer, comprising:

monitoring the status of a process within the computer;

logging the status data of a process within the computer upon a change in the status of a process;

accumulating the status data, wherein status data is accumulated in a first-in, first-out queue; and

writing the status data to the memory storage.

Application/Control Number: 10/603,075 Page 3

Art Unit: 2189

(C) Cancel claim 3.

(D) Amend claim 4 as follows:

A method for accumulating information pertaining to the operating parameters, operating history and status of computers for use in diagnostic evaluation, comprising: monitoring the status of a task within a computer;

if the task is active, logging the status data of the task within the computer; if an event occurs related to the task, logging any change in the status of the task caused by the event;

accumulating the status data, wherein status data is accumulated in a first-in, first-out queue; and

writing the status data to a memory storage coupled to the computer.

- (E) Cancel claim 6.
- 2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185. The examiner is generally available between 7:00 am and 7:30 pm, EST, Monday through Wednesday, and between 5:30 am and 4:00 pm on Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Kim, can be reached at (571) 272-4182. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should
